ABSTRACT

This index provides entries for business education articles and research studies compiled from a selected list of periodicals and yearbooks published during 1992. Priority is given to journals essential to research and teaching in the broad business education spectrum with emphasis on information systems (including business communications), business teacher education, and vocational education (primarily marketing education). All entries have the title, author(s), journal, volume and number (if applicable), inclusive pages, month, and year. Subjects are arranged in alphabetical order first by main category and then by subcategories. Main categories contain miscellaneous entries related to that category; subcategories contain more specific entries. Each article is indexed under at least one and no more than four subjects. Major categories are as follows: accounting, accreditation, administration and supervision, business administration, business education, business communications, curriculum, document design and processing, educational institutions, employment, equipment and supplies, general education, guidance and counseling, human relations, information management/processing, keyboarding/typewriting, legislative issues, marketing, microcomputers, minorities, office management, professional development, reprographics, research, shorthand, special education, standards, teaching, testing and evaluation, and training and development. An author listing in alphabetical order follows the subject section. (YLB)

Editorial Policy

Publications indexed in the *Business Education Index* will be limited to specific business education publications and those related to business education. Priority will be given to journals that are essential to research and teaching in the broad business education spectrum with emphasis on information systems (including business communications), business teacher education, and vocational education (primarily marketing education).

The publications in the *Index* must provide sufficient information to be of significant use to researchers. Also, the ability to locate journals and magazines from library sources is essential to the research process. Therefore, state and regional business education publications will be indexed if they meet the following requirements:

1. Publications that are a minimum of 10 pages in length.

2. Publications containing at least three substantive articles, preferably research-based.

3. Publications that are distributed to NABTE institution libraries or to NABTE institution departments in which business education is located.

4. Publications that are provided without charge to the editor.

Any organization or editor who wishes to have a publication included in the *Index* should contact the *Index* editor.
